ELIZABETH A. COOPER

Atlanta, GA | cooper.elizabetha@gmail.com | linkedin.com/in/elizabethacooper5

SUMMARY

Product Manager with 10+ years across retail, merchandising (brick-and-mortar and eCommerce), and enterprise product management. Proven ability to translate complex business challenges into customer-centric product strategies, align cross-functional teams, and deliver solutions that improve operational efficiency, drive growth, and create customer value.

PROFESSIONAL EXPERIENCE

The Home Depot *Atlanta, GA*

Product Manager, Merchandising Product – Assortment & Space Sep 2024 – Present

AI & Optimization

- Own product strategy, roadmap, and delivery for an Assortment and Space Optimization AI initiative, partnering with a 6-member team across AI/software engineering, data science, and UX while coordinating business leaders and consultants.
- Lead products with agentic workflows that improve user efficiency and establish reusable rules.
- Co-led a 3-week discovery sprint of **35 interviews with 61 participants across 9 business functions**, informing leadership's decision to discontinue investment in a low-value opportunity.

Platform Delivery

- Migrated **1,000+ suppliers** representing **$15M+ in online sales** and opened a new revenue stream by delivering 4 supplier scalability releases that reduced manual work, sped downstream processing, and removed a legacy dependency.
- Achieved **6 consecutive months with zero related support tickets** by delivering multi-unit-of-measure controls from pilot through enterprise rollout, improving in-store product sellability.
- Returned **~17 weeks of engineering capacity** by automating regional assortment setup for **17 new stores**, eliminating ~1 week of manual work per opening; positioned to support **36 stores** and **~9 months of capacity** through early 2028.
- Reduced related support tickets **~50%** across comparable 6-month periods and improved platform performance and reliability by migrating assortment history archives to BigQuery.
- Reached **346 users within two quarters (41% of active users)** with a new cross-channel assortment experience, establishing the foundation for additional enterprise assortment capabilities.
- Limited margin exposure to **under $500K** through a rapid cross-functional clearance response, and supported the **highest-sales Black Friday in company history**.

Senior Business Analyst, Merchandise Management Systems Jun 2022 – Sep 2024

- Shaped product and process improvements by analyzing user workflows, pain points, and adoption barriers with Product and Merchant teams and translating insights into requirements.
- Led the first standardized year-end planning training for **500+ merchandising associates** across 5 enterprise sessions.
- Raised new-store opening in-stock to **99%** and cut out-of-stock SKUs from **2,000+ to 283** by leading readiness reporting and issue resolution across Merchandising, Store Environment, and Supply Chain.
- Improved tool adoption by building a centralized enablement and support hub and onboarding 3+ cohorts annually.

Merchandise Planner Analyst Jun 2020 – Jun 2022

- Contributed to a comparable-sales turnaround from **-17.3% to -1%** and **+10% first-half growth** by executing assortment strategy for a **~$1.07B** retail category and leading 7+ company-wide resets, including a **38% SKU reduction**.
- Partnered with vendors to manage the category and execute resets, and with Finance on their margin and cost impact.

H&M — Department Manager *Atlanta, GA | Jan 2017 – May 2020*

- Drove **35%+** of a **$5M+** store's revenue as department lead, managing budgets, inventory, and teams up to 25 associates.

Belk — Sales Team Manager *Rome, GA | Jun 2015 – Jan 2017*

- Developed 15+ associates while executing seasonal planograms, visual standards, and brand directives.
